Professional Experience (Total - 2 Years and 4 Months)

RiditStack Private Limited (Junior UI Developer)

Mar 2024 – May 2024

Project: PhoneGo – Mobile Repair Service Platform

- Developed a responsive web platform for selecting mobile repair services, pricing, and booking.
- Built UI components such as dynamic price calculator, service forms, FAQs, and blog modules.
- Ensured smooth UX with clean design, optimized interactions, and cross-device responsiveness.
- **Tech Used:** React.js, JavaScript, Bootstrap, CSS, HTML

Social Media Web Application (Junior UI Developer)

Sep 2024 – Nov 2024

- Designed user authentication (login/signup), post creation and interaction features (likes, comments).
- Developed profile management with editing and post history.
- Managed state using Redux/Context API for seamless user interactions.
- **Tech Used:** React.js, HTML5, CSS3, Bootstrap, JavaScript, .NET, C#, SQL Server

E-commerce Fashion Website

Jan 2024 – Mar 2024

Built a fully responsive and engaging e-commerce website for a women's fashion brand. Focused on delivering seamless UI/UX and high performance across all devices. Key Features:

- Hero Banner Section: Featured promotional banners with striking visuals and call-to-action buttons.
- Product Categories & Filters: Sidebar with dynamic filtering for size, color, and price.
- Reusable Product Cards: Built modular React components for displaying new arrivals, trending & best-selling items.
- Deal of the Day: Implemented real-time countdown timers using JavaScript to drive urgency.
- Responsive Grid Layout: Leveraged Tailwind CSS and Flexbox/Grid for adaptive layouts.
- Customer Testimonials & Services: Enhanced brand credibility through reviews and service highlights.
- Blog Section: Integrated fashion blogs to boost SEO and keep users engaged.
- Footer Section: Included essential links, brand info, and contact details with clean, accessible design.

Technologies Used: Frontend Developer | HTML5, CSS3, JavaScript, Tailwind CSS, React.js
